Education

University of California, Berkeley

Bachelor of Arts in Computer Science

Sep. 2026 – May 2030

Haworth, New Jersey

Relevant Coursework

- CS 61A
- Software Engineering
- AP CS A (5)
- Systems Programming
- Artificial Intelligence
- CS Theory
- SQL
- Intro to Web Dev

Experience/Projects

Senior Capstone: Korean School of New Jersey

September 2025 - May 2026

Tech Consultant and Lead Developer

Closter, New Jersey

- Developed a full-stack automated log-in app within a team of 4 for the Korean School of NJ in order to streamline attendance tracking for 70+ teaching assistants and 600+ students.
- Replaced a messy, inefficient paper system with a secure online system to prevent TAs from faking volunteer hours and save teachers 50+ hours of manual calculations per school year.
- Developed a personalized analytics dashboard built with React, Node.js, Express, Auth0, and PostgreSQL (bundled with Vite and deployed on Vercel), allowing each TA to track their accumulated volunteer hours and awards.
- Implemented a backend precise location validation check to prevent TAs from improperly clocking in from outside the school grounds.

Route 88: Video Game (Steam Commercial Release)

June 2025 – November 2025

Project Director/Producer

Pittsburgh, Pennsylvania

- Published original rhythm parkour game on Steam, gaining over 300 downloads and 150 wishlists across 10 countries within first weeks of release.
- Developed game initially with 6-member team over 6 weeks at CMU's National High School Game Academy, using version control systems Git and Perforce.
- Led pitch presentations to real-world game developers, curated artistic direction, and created a harmonic team atmosphere.
- Spearheaded publication process by creating a public store page, uploading multiple game builds, and handling programming, testing, and post-launch updates.

Leadership & Involvement

Manhattan School of Music: Philharmonic Orchestra

September 2023 – May 2026

Associate Concertmaster and Violinist

NYC, New York

- Achieved 2nd chair in the highest level orchestra of a selective, conservatory-style pre-professional program through a rigorous live seating audition.
- Directed sections of 30+ members by distributing bowings and fingerings, and providing verbal and nonverbal cues during rehearsals and performances.

National Art Honor Society: Juried Exhibition

September 2023 – May 2026

Selected Artist

Hackensack, New Jersey

- Selected for a highly competitive national exhibition, chosen from a pool of 2,725 submissions with only 124 works accepted (4.5% acceptance rate).

Cell and Molecular Biology Research

September 2023 – May 2026

Student Researcher

Hackensack, New Jersey

- Awarded 2nd Place at the ISEF-affiliated BCA Research Expo out of 100+ competitors
- Investigated dual-combination therapy (Corr-4a and Genistein) to improve protein function in Cystic Fibrosis.

Columbia University Science Honors Program

September 2023 – May 2026

Student

NYC, New York

- Selected via competitive examination for a Saturday program serving high-achieving students in the tri-state area.
